

Teagan Crouch: Creative Art

The project: Creative Aid was a workshop intended for women and children who have previously experienced family violence and have been in isolation due to COVID-19. Teagan created a set of custom creative workbooks and art supplies that were sent out to 60 households throughout Victoria that had previously experienced family violence.

The artwork: From Harvest to Home tells the story of a caring and resourceful mother who could adapt to anything life threw at her, including family violence, homelessness and the COVID-19 pandemic.
